SCOUT FAIR 2016
Safety Requirements Manual

April 16, 2016 • 10AM – 3PM
NRG Arena
“Taking Flight with Scouting”

Please contact Rebecca Navarro at 713-756-3305 or email to rebecca.navarro@scouting.org
For any changes, cancellations or concerns regarding your booth.
The BSA’s Commitment to Safety

We want you to know that the safety of our youth, volunteers, staff, and employees is an important part of the Scouting experience. Youth develop traits of citizenship, character, fitness, and leadership during age-appropriate events when challenged to move beyond their normal comfort level, and discover their abilities. This is appropriate when risks are identified and mitigated.

The Scouting program, as contained in our handbooks and literature, integrates many safety features. However, no policy or procedure will replace the review and vigilance of trusted adults and leaders at the point of program execution.

Commit yourself to creating a safe and healthy environment by:

- Knowing and executing the BSA program as contained in our publications
- Planning tours, activities, and events with vigilance using the tools provided
- Setting the example for safe behavior and equipment use during program
- Engaging and educating all participants in discussions about hazards and risks
- Reporting incidents in a timely manner

Thank you for being part of the Scouting movement and creating an exciting and safe experience for every participant.
**PREFACE**

All participants at Scout Fair must be familiar with and adhere to the requirements in this manual. In addition, all applicable Boy Scouts of America practices, policies, and guidelines apply to this event and program areas. In the event these requirements conflict with BSA documents or local, state or federal laws the more stringent requirement applies.

Activities not covered by this document or another BSA practice, policy or guideline must be approved by event coordinators and the Scout Fair Risk Management Chair. Units that do not meet the following safety requirements will not be allowed to participate.

**GENERAL SAFETY REQUIREMENTS**

All Scout Fair booths and activities must meet the current [Guide to Safe Scouting](#).

**Adult Supervision:**

Adults/leaders must be present in booths at all times. Remember two-deep leadership.

**Age-appropriate Activities:**

Activities and booths must adhere to the [Age-Appropriate Guidelines for Scouting Activities](#). This means some booth activities may be appropriate for older scouts but not Cub Scouts.

**Chemicals/Fuels:**

Flammable liquids, chemicals, or harmful hazardous substances are prohibited.

**Emergency Equipment/Exits:**

All fire extinguishing equipment must be unobstructed and accessible at all times. All exits and aisle ways to exits shall be maintained free and clear at all times.

**Extension Cords:**

All electrical cords/wires must be in good condition. Cords on the floor must be taped to floor to restrict movement and prevent tripping.

**Fires:**

No fires or open flames inside NRG Arena.

**Injuries:**

Call 911 for emergency situations. Non-emergencies should be referred to the First Aid Booth located by the main entrance.

**Floor Safety:**

Exhibits featuring jousting, climbing, or other possibilities of a youth falling, must provide padding equivalent to gym mats (aerobic/exercise pads are not acceptable). Also, age-appropriate (sized) protective clothing, helmets and gloves must be provided. Frames made to contain pads must be padded and all bolts/nuts must be padded. All balls or projectiles used to knock down objects such as paint cans, plastic bottles, must be contained within the booth boundary.
Noise:
Booths shall not conduct activities that generate continuous load noise (≥ 90 dB for more than an hour) or is deemed a nuisance to adjacent booths by the Safety Team.

Prohibited Activities/Items:
- Human pyramids
- Whistles, air/fog horns, etc.
- Live animals, mammals or reptiles
- Sand, gravel, dirt or topsoil
- Live or cut trees, hay or straw
- Helium balloons or stickers
- Bicycles, motorbikes, skateboards, scooters, roller skates/ blades/shoes or the like
- Climbing on Rodeo Statues. Picture taking is permitted.

Security:
Security is provided Friday night to help ensure the safety of equipment inside NRG Arena. However, valuable items left in your booth area are at your own risk.

Setup:
Booths should be set up and ready by 10 am Saturday. All necessary personal protective equipment (e.g., helmets, safety glasses, gloves, etc.) must be worn during set up/tear down.

Smoking:
No smoking or use of tobacco products are allowed inside NRG Arena or at the entry/exit ways.

Staffing:
Proper staffing (in addition to adult/leader supervision) must be provided to control people waiting to participate in booth activities. Control must be maintained to keep people safely lined up and to not interfere with any other activity.

Tools:
Use of any gasoline power tools is prohibited. All tools require adult supervision.

Vehicles in NRG:
Vehicles cannot drive inside NRG Arena to setup booths. Bring your own dollies, hand-trucks and/or wagons, etc. to transport items to your designated booth. Vehicles used before the fair (Friday night only) to transport large displays (e.g., boats, etc.) must coordinate with the safety/security team at the event prior to entering the facility. Liquid and gas fueled vehicles and equipment displayed at the fair must adhere to the following:
1. Batteries must be disconnected
2. Fuel in the tank shall not exceed the greater of one quarter tank or two gallons
3. All vehicles must have a lockable gas cap
4. Fuel tank openings shall be locked and sealed to prevent the escape of vapors

Water Usage:
Unit exhibits involving water must provide and use mops to keep floors and walkways dry at all times to avoid a slip or fall.
OUTDOOR BOOTH REQUIREMENTS

Cooking/Fires:
1. Fires will only be fueled by charcoal. No liquid fuel or propane can be used to ignite charcoals on the premises.
2. No other fuels are permitted. This means no wood, grass, straw, hay, etc.
3. Cooking fires cannot be built directly on the pavement. Use a steel plate, garbage can lid, concrete blocks, BBQ grill with legs, etc. to keep cooking fires up off the pavement.
4. Ashes cannot be left or scattered, they must be placed in specially marked receptacles located outside or taken with you.
5. Two (2) fully charged multipurpose (ABC) fire extinguishers must be provided by each unit and displayed in an easily accessible location in the booth. Sand and/or water buckets are not acceptable.
6. Hot pad gloves and safety glasses must be worn by people for protection against hot grease splatters.
7. Disposable serving gloves are to be worn by participants serving food samples.
8. Wash stations must be provided for hand washing by all units participating.

Flint and steel:
1. All fires must be made in a proper fire pit - such as a tuna tin can with no sharp edges. Scouts staffing the activity as well as participants must wear age appropriate safety glasses.
2. Frayed rope is the only material acceptable to use as tender at Scout Fair.
3. Leather gloves should be used by all Scouts and staffers when holding the flint.
4. Age-appropriate safety goggles must be worn by all participants and staffers.

Vehicles/Parking:
1. There will be someone outside in the area to assist in locating your booth space.
2. Vehicles towing trailers will not be permitted to park in the parking lots containing outdoor booths during the duration of the show.
3. All vehicles must be removed from the outdoor booth display area 1 hour before the show begins (i.e., 9:00 AM) and will not be permitted to re-enter the area until after 3:00 PM.
4. Security and law enforcement personnel will be on site to answer any questions.
**SHOOTING BOOTH REQUIREMENTS**

All shooting activities must adhere to the BSA National *Shooting Sports Manual*.

**Archery:**

1. If there is only a display of bows, arrows and accessories, the booth may be anywhere in NRG Arena. Displays must be supervised at all times.
2. If arrows are to be shot, the booth must be at the end of the aisle and the archery range must be placed so two sides of the building forms two boundaries of the range. The other two boundaries must be well marked and some distance from the shooting lanes.
3. Commercial, institutional quality indoor archery targets (such as Ethafoam) must be used. (Bales of hay and common Styrofoam blocks cannot be used).
4. Targets must be placed in the front of one of the solid walls.
5. Bow must be lightweight, pulling less than 25 lbs.
6. Arrows must have target points.
7. Shooting will be done only by trained members of the unit carrying out the demonstration and under the constant supervision of an adult.
8. All equipment must be safely stored out of reach of visitors.

**BB Gun/Air Rifle:**

1. The booth must measure 10 feet by 40 feet for one firing point.
2. There must be one adult in the waiting area and one adult on the firing line when the Scouts are shooting.
3. Scouts staffing the activity as well as participants must wear age-appropriate safety glasses.
4. The target shall be a cardboard box at least 2 feet by 2 feet by 1 foot deep filled with tightly compacted, crushed newspaper.
5. Behind the cardboard target there must be an 8-foot-high heavy canvas or carpet backstop across the entire width of the booth. This same material should extend from the rear of the booth, 10 feet along both sides of the booth. This backstop material shall be heavy enough so that the air rifle, shot at a distance of 10 feet, will not penetrate the material.
6. The firing line shall be clearly marked and only one shooter will be on the firing line at any time. The line shall be 15 feet from the target.
7. Those waiting to shoot will be retained in an area at least 6 feet from the firing line. While waiting participants must be given instructions on gun safety, rifle position, sight alignment, breathing, trigger squeeze, etc.
8. The entire side of the booth towards the aisle(s) must be fenced off with at least two strands of twine or small rope. There must be only one entrance.
9. The BB Guns to be used shall be the low-powered, spring type, such as the Daisy Air Rifle. CO2 or hinge pump guns are not permitted.
10. If other types of rifles are present for demonstration, they must be made inoperable by removing bolts, firing pins and/or by attaching trigger locks.
11. Handguns, including BB or pellet pistols, will not be permitted in the firing booths.
12. Shooting supervision will be done only by trained members of the unit carrying out the demonstration and under the constant supervision of an adult (Scout Fair visitors and participants will not be allowed to shoot).
Rubberband Guns/Slingshots:
1. Age-appropriate safety glasses must be worn by all participants.
2. A safe backstop must be in place.
3. A safe firing line must be in place.
4. Shooting must be at targets only. No shooting at each other. Human form and zombie silhouette targets are not approved for use.
5. The activity must be contained within the assigned area.
6. Slingshots are not an age-appropriate activity for Cub Scouts at this event.
7. A range master must be present and a 1-to-1 adult-to-youth ratio must be used.

“Tabletop” Catapults:
1. Only tabletop catapults are acceptable.
2. Age-appropriate safety glasses must be worn by participants as well as those staffing the activity.
3. All apparatus, including projectiles, must stay within confines of booth.
4. Only soft objects are acceptable as projectiles.
5. No exposed sharp edges, corners or exposed bolts or nuts. Must be padded.
6. Only fixed targets are acceptable. (No catching of any type of projectile).
7. Staffing (in addition to activity Supervisor) must be provided to control people waiting to participate in the activity. Control must be maintained to keep people safely lined up and to not interfere with any other activity.

CLIMBING/PIONEERING REQUIREMENTS

Climbing:
2. Structures must be structurally sound.
3. Climbing activities or demonstrations that would require a belay system (i.e., climbing above shoulder height) is not allowed.
4. Climbers must be protected by spotters. In addition to spotters, mats or pads should be placed at the base of structures.
5. Bolts used to secure hand or footholds must be load rated for climbing purposes. No bolts used from a home improvement store (e.g., Home Depot, Lowe’s, etc.).

Monkey Bridges:
1. Monkey bridges may not be constructed higher than 5 feet above the surface nor may they be longer than 40 feet.
2. The shoulder height of the crosser should be at least the distance between the hand ropes and the foot rope. (4 feet tall at the shoulder if the distance between the hand rope and the foot rope is 4 feet).
3. Only one person is allowed to cross at a time (no one else even touching the ropes).
4. Each youth crossing the bridge must be accompanied by two adults (one on either side) walking beneath them to serve as "spotters". One of the adults must be a member of the unit (one adult may be the youth's parent).
5. Floor pads are not required for monkey bridges (due to requirement No. 4).
6. No swinging or any form of horseplay is to be tolerated.
**Pioneering:**
1. Adult leadership must be present in the booth at all times (during construction, during display and during take down).
2. The structure shall be structurally sound. Ties and lashings must be strong, tight and substantial. They must be checked frequently.
3. Anchoring ropes must avoid friction against sharp edges of the supporting structures.
4. Climbing on structures such as signal towers, etc. that have walking surfaces above 5 feet, must be limited to members of the unit putting on the display.
5. Only one person is allowed to climb on a structure at a time and a "spotter" must be used at all times.
6. More than one person will be allowed on bridges with spotter on and next to entry and exit ramps as well as on the bridge itself. Adequate handrails, (at least two and preferably three) must be provided for the walking area as well as entry and exit ramps.
7. Pioneering Projects that have the potential of a participant falling and/or slipping, must provide a helmet (age appropriate) and the individual must be secured by rope and belayed with proper equipment. Mats (per floor safety requirements) must also be provided.
8. A picture of the exhibit along with a detailed description of the operation, must accompany your unit participation application.

**MISCELLANEOUS REQUIREMENTS**

**Can crusher – Recycling:**
1. Provide “Age Appropriate” eye protection/safety glasses and gloves.
2. Guard against pinching of hands and fingers.

**Cub Pushmobile:**
1. All drivers must wear age-appropriate protective head gear, such as a football helmet, motorcycle helmet, bicycle helmet or equivalent. All drivers must wear age appropriate protective solid leather gloves. All drivers must wear a seat belt.
2. All vehicles must have safety blocks to limit the steering angle and turning radius.
3. All pushmobiles must be constructed to meet the following standards:
   a. Wheels shall not exceed 12 inches in diameter.
   b. All wheels must be equipped with solid rubber tires.
   c. Car frame should be made from 2-by-4 inch construction lumber.
   d. Overall length of the car shall be a maximum of 5 feet; the wheel base a maximum of 4 feet. The outside circumference of the wheel may vary from 30 to 36 inches.
   e. Use roundhead ¼ inch bolts to hold frame. Screws are a second choice. Nails are not suitable, because they may work loose.
   f. All cars must have a seat with braced backrest, allowing the rider to comfortably steer with his feet.
   g. Steering is done with the feet, which are placed on the front axle, and by the hands holding a rope fastened to the front axle.
   h. If threaded axles are used, the nuts must be secured with cotter pins or wire.
   i. Cars must be equipped with an adequate safety belt securely fastened to the main frame of the car.
j. Cars must be equipped with a handbrake with its drag rubbing surface faced with a rubber material such as a strip of an old tire. This will stop the car when dragged on the ground.
k. Two 2-by-4 inch blocks must be fastened to the first axle an inch from the centerboard to the limit turning radius.

Jousting:
1. The ends of the device used for jousting must be well padded.
2. All participants must wear age-appropriate helmets, safety glasses and leather gloves.

Knife Handling:
1. Provide age-appropriate leather gloves for each participant.
2. Provide a guard on “Mill Files” for sharpening.
3. Utilize safe practices as outlined in the Whittling and Totin’ Chip

Nail and Hammer:
1. Age-appropriate safety glasses and leather gloves must be worn by all participants.
2. Nails must be started by an adult pre-nailing it in board.
3. Aluminum nails are suggested.

Tire Safety:
1. Tires must be safe with no exposed metal belting that can cause injury upon contact.
2. Stacked tires must be secured so as not to fall over.
3. You must take all tires used in the booth home with you. In addition, laws prohibit the disposal of tires in commercial trash dumpsters.
